Introduction

The following are a set of 3 appendices to frequently referenced pages. They focus on the following:

A. MMC Selection Guides

- Aim to help compare and make decisions around which devices may be suitable for someone.
- These selection guides often focus on both MMC devices as well as comparable market solutions.

B. Other Resources

- This provides a list of various other organizations, resources, or centers also working on adaptive gaming that have useful content/services.

C. MMC AT Links

- This is a full list of the devices that the GAME Checkpoints received from Makers Making Change. This can be used to request more devices for a gamer or the center itself.

Appendix A: MMC Selection guides

Resource	Description	QR Code
Switch Selection Guide - Makers Making Change	This selection guide covers open source and commercial switches; it goes over the intended users, mode of activation, activation force, cost, shape, mounting methods, and any additional requirements.	https://makersmakingchange.com/resource/device-selection-guide-switches/ 
Analog Gaming Joystick Selection Guide - Makers Making Change	This resource has been created to aid in comparing both open source and commercial options of analog joysticks. These joysticks may be used for gaming or computer access. The tables allow users to compare the price, switch access options, the option of interchangeable toppers, and the type of connection to devices.	https://makersmakingchange.com/resource/analog-joystick-selection-guide/ 
Device Selection Guide: Switch Interfaces - Makers Making Change	This selection guide covers the open source switch interfaces available on the MMC website. It covers the features of each interface, as well as the connection types to mobile and PC devices.	https://makersmakingchange.com/resource/device-selection-guide-switch-interfaces/ 
Adaptive Gaming Resources Series - Makers Making Change	<p>MMC created a 4 part resource that works to give a crash course on adaptive gaming. The resources are as follows:</p> <ol style="list-style-type: none"> 1. Introduction to Adaptive Gaming 2. Assistive Technology in Gaming 3. Accessibility in Video Games and Gaming Goals 4.
